

**PROGRESSIVE UROLOGY  
DR. CAREY RANSONE  
CORONAVIRUS PANDEMIC**

**Progressive Urology values the safety of our patients and our staff. For that reason we will be constantly reassessing the CDC guidelines on the Coronavirus situation and re-evaluating how our outpatient operations will function.**

**Given that the majority of our patients fall into the most vulnerable population with regard to age and medical risk, we will be canceling all non-urgent follow up visits (for example 1,6, and 12 month follow-ups) until further notice. We understand that the only way to reduce the spread of the virus and save lives, is to take social distancing seriously and limit all nonessential contact.**

**We will not allow more than one person to accompany a patient to their clinic visit. Additionally, no one under 18 years of age will be allowed to come to the clinic unless they are a patient.**

**We will not be penalizing patients for canceled, or no-showed visits during this time.**

**Additionally, if you do not feel well, we ask that you do not come to the clinic. Our providers and staff will be following the same advice.**

**Again, we realize how this may impact and be an inconvenience for many, however, we feel that it is in the best interest of public health and safety to take the recommendations in preventing coronavirus very seriously.**

**Thank you and be well,**

**Dr. Ransone and the Progressive Urology staff**
